### REVIEW OF MARKETS

A drop of 2 points in Denver and Rio Grande preferred was unexplained by any news of the day. Speculators do not forget that it was the industrial and commercial activity of the country which encroached on the funds they had embarked in speculation in December, and they are watching for the future rate of activity of business to define itself before availing themselves of the present ease of money, which, it is feared, may prove ephemercal and illusory.

CHICAGO MADKET.

of the present ease of money, who is feared, may prove ephemereal and illusory.

Offerings of mercantile paper at present are light, owing to large houses using the year's profits as working capital. The sharp upward course of Sterling Exchange to-day gives point to the apprehension that gold will again go out to help supply England's need for war expenditures. An official of the Imperial Bank of Germany, quoted to-day, attributes the ease in the German market to an artificial manoeuvrer made to prepare the market for municipal loans, and the same authority asserts that Russia is to raise a loan. The future contingencies in the money market thus foreshadowed may help to explain the persistent indifference of speculators to the present abundance of funds.

New York, Jan. 29.—The New York stock market continued to view with equanimity the disturbance in the London and conditions on the exchange there, which cables to Wall street described as panicky, the opening decline exceed fractions, and there was no pressure to sell outside of that for foreign account. The buying by the local traders proved sufficient to absorb the and to advance prices to Saturday's global, and the dealings were narrow and regions of the day was exceedingly sluggish, and the dealings were marrow and professional. The industrial specialties continued to lead in point of activity. The speculation in Singar showed some strength, the stock rising an extreme show of strength on the local tritection group. Other metals stocks were firm in sympathy. Glucos, Sci. 1988.

### The Cotton Markets.

NEW YORK COTTON MARKET.

New York, Jan. 29.—Speculation in cotton futures to-day was active, with the course of the market in the main upward, although considerable irregularity was developed through alterations of bear and bull supremacy, while the average was considerably above Saturday's basis. At one time the more active positions, after opening at an advance of 1 to 5 points, showed a netrise of \$@13 points. The improvement was chiefly due to the favorable English advices, in the face of continued unfavorable news from the seat of war. Private cables said the advance was largely due to an advance of \$\frac{5}{2}64. In otton futures to-day was netive, with

unfavorable news from the seat of war. Private cables said the advance was largely due to an advance of 74d. in Egyptian cotton during the last few days and further to the fact that the South continues to hold for higher prices. The speculative movement in the local market was very active, with buying largely from England, but also from Wall street, the South, the West and from New England spinners.

During the afternoon the feeling was weaker under profit-taking, following predictions of larger receipts at the ports with estimates for to-morrow, particularly bearish. The market closed steady, with prices 7 points lower to six points net higher.

Cured by Johnson's Dyspepsia Cure

"I suffered over two years with Indigestion and
Nervous Dyspepsia, unable to eat or sleep. I
tried several physicians and different remedies,
but they only helped me for a short time. A
friend advised me to take Johnson's Dyspepsia,
Cure. I have taken three boxes, and am now
feeling better than I have for two years. Have
a good appetite, sleep well and have none of the
symptoms of Indigestion or Dyspepsia, while
I have gained ten pounds in weight within a
comple of months. I am taking pleasure in recommending Johnson's Dyspepsia Cure whereever I can, and several of my friends are taking
it with marked results."—I, A. Arnold, Clim.
